**OFFICE OF PETITIONS**

In re Application of	:	
Demuth et al.	:	
Application No. 10/676,832	:	ON PETITION
Filed: October 1, 2003	:	
Attorney Docket No. PBD-00004-D1-CON	:	

This is a decision on the petition under 37 C.F.R. § 1.137(b), filed March 9, 2006, to revive the above-identified application.

The petition is **DISMISSED**.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. No further petition fee is required for the request. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

This application became abandoned for failure to timely reply to the non-final Office action mailed August 10, 2005. No extensions of time under the provisions of 37 CFR 1.136(a) were obtained. Accordingly, this application became abandoned on November 11, 2005. A Notice of Abandonment was mailed February 17, 2006.

A grantable petition under 37 CFR 1.137(b) must be accompanied by:

- (1) the required reply,
- (2) the petition fee,
- (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, and
- (4) a terminal disclaimer and fee if the application was filed on or before June 8, 1995 or if the application is a design application.

Where there is a question as to whether either the abandonment or the delay in filing a petition, under 37 CFR 1.137 was unintentional, the Commissioner may require additional information.<sup>2</sup>

---

<sup>1</sup> In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof.

<sup>2</sup> See MPEP 711.03(c)(III)(C) and (D).

The instant petition lacks item (1). Before a petition under 37 CFR 1.137(b) can be granted, a response to the Office action mailed on August 10, 2005, must be submitted. A copy of the Office action is enclosed per the request of the petitioner.

### *Double Patenting*

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-11 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-11 of prior U.S. Patent No. 6,500,804 B2.

The present application and the patented application both teaches a method for increasing the capacity of insulin providing cells in an animal comprising administering to said animal a therapeutically effective dose of at least one DP IV enzyme activity effector.

This is a double patenting rejection.

Claims 1-11 are not allowed.

Art Unit: 1614

Claims 1-11 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-11 of copending Application No. 10/910,176.

Both applications are claiming the same invention:

A method for increasing the capacity of insulin providing cells in an animal comprising administering to said animal a therapeutically effective dose of at least one DP IV enzyme activity effector.

This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claims 1-11 are not allowed.
